Instructions:

- If you **have not** used a well and/or surface water intake this year, please indicate "0" gallons on the corresponding line.
- If you **have** used a well and/or surface water intake this year, please indicate:
  - the acreage covered per well and/or surface water intake
  - the method used to calculate the annual gallons, as selected from the pull-down menu
  - the gallons pumped per well and/or surface water intake
- After all values have been entered, press the "Calculate Total Pumpage" button or the Enter key to calculate the total gallons used by your operation during this reporting year.

NOTE:When entering a value greater than zero in the Annual Gallons section, Acres and Method will become mandatory sections in order to complete this form.

If any of your well or intake data listed below is incorrect or needs to be changed, use the comment field to provide the details.

Please contact IWIP at phone number 217-333-0239 or email isws-iwip@isws.illinois.edu if you have any questions.
